

TriService Regional Standardization Support DSCP Medical Materiel Directorate

Consolidated Price Book Admin User Guide

This presentation is designed to illustrate how an administrative user can verify and load information on Regional Incentive Agreement (RIA) products by utilizing the Consolidated Price Book (CPB) application. The CPB application is designed to provide a web based catalog of RIA products for DoD military medical customers.

The following steps highlight the process of verifying RIAs:

- Go to <http://dmmonline.dscp.dla.mil/standardization/default.asp> (use Internet Explorer browser).
- Select Consolidated Price Book and log-in.
- Select ALL CUSTOMERS and then your Region.
- Under the Data Analyst Search Fields you will need to select choices from the three fields.

TriService Regional Standardization Support DSCP Medical Materiel Directorate

Consolidated Price Book Admin User Guide

- Select the “Update” button.
- Under the Update Options fill-in the fields for:
 - (Is this is a) RIA
 - RIA number
 - Select a RIA Product Group
 - RIA Effective Date
 - RIA Expiration Date
 - RIA Modification number if applicable
- At the bottom of the window select “Continue>>”.
- The information you entered will appear in red font.
 - You can go back “<<Back” or continue “Update”
- A confirmation box will appear, select “OK” to continue or “Cancel” to stop the update process. Cancel will leave the update window visible, select “<<Back” then select “<<Back” again or choose “Reset” to clear the RIA information.
- After selecting “OK” a confirmation will appear letting you

Consolidated Price Book Admin User Guide

NOTE - To speed up the RIA update process it is recommended that you have
your RIA information in-hand.

FOOT NOTES -

¹ Select Review Status

All RIA Review Status (selects both new and updated records)

New (from DAPA Management System (DMS), no RIA info loaded)

Updated (records that have been updated but need to be revised)

² Select Source

All Sources (selects every record)

Batch Load (selects just batch updated records)

DMS (selects new records from DMS)

hl90152 (selects records that admin user loaded via CPB.3

After an admin
